

UNIQUE GIFTS

OUR STORY

Květná Glassworks, established in 1794, is one of the oldest continuously operating glass factories in the Czech Republic. It was founded by Prince Alois I of Liechtenstein, right on the border with Slovakia.

Originally, the glassworks focused on producing sheet glass. It wasn't until the mid-19th century that a new owner, Emanuel Zahn, initiated the transition to a factory specializing in fine crystal glass, adorned with intricate engravings, cuttings, and later, etchings.

What began as a small operation quickly grew into a glassworks of European renown, with products reaching every corner of the world.

For several decades, Květná Glassworks has been a symbol of quality and elegance. Its products are celebrated not only for offering the widest range of 16 color shades in Europe but also for their delicate craftsmanship and exceptional durability, thanks to a unique titanium blend. Each piece is a handmade original, crafted by master artisans who pour their skill, years of experience, and above all, their passion into every creation.

GIFT PERSONALIZATION

We can customize the packaging with your logo using a white sleeve or a sticker.

PANTO

Květná Glassworks is the only glass factory in the Czech Republic that boasts a unique technique utilizing the principle of acid etching to create delicate decorations. The process begins by dipping the product into wax, which is then allowed to cool. The desired pattern is then engraved into the wax using a specialized machine called a guilloche. The product is subsequently submerged in acid, which etches the engraved pattern into the glass. After the wax is removed, a fine line decoration remains on the product.

This method is suitable for application on the bodies of wine glasses as well as water glasses.

SANDBLASTING

Sandblasting is a glass decorating technique in which grains of sand are projected at high speed onto the glass surface, roughening areas that are not protected by a cover layer.

This technique can be used to apply logos or other designs, for instance, on the base of a wine glass or the bottom of a water glass, where they stand out beautifully.
